[19:59] <thatanonybear> name all your videos "DSP FINGER FAMILY SONG"  
[19:59] <secretbossfight> If YouTube held the revenues when you filed a complaint the way they do when you dispute a false copyright claim, it wouldn't be a problem  
[19:59] <bossbabyreturns> youtube is slow, that's why twitch is so good  
[19:59] <popsicolo> Phil should add the keyword "toy review" to his videos.  
[19:59] <bammbino> i couldnt do YT as a job

[20:05] <soupysean68> HotPokket  
[20:05] <i\_came\_here\_to\_something> Phil, the ADVERTISERS are the ones telling Youtube to pull ads from controversial vids. Damn it!  
[20:05] <nich2440> it's sad that people use political values as insults  
[20:05] <i\_came\_here\_to\_something> Youtube's hands are tied

[20:08] <girlonduty> HeyGuys  
[20:08] <i\_came\_here\_to\_something> @tr9000 Exactly. It's not even just right-wing vids that get flagged and de-monitized anymore. Anything that isn't Disney G-rated stuff is getting hit, no matter where it falls politically.  
[20:08] <tr9000> so youtube is now a safeplace for rip off videos aimed toward children but includes questionable activities such as murder and theft among other things?  
[20:08] <breath321> How many thousands of people would you need though? to filter through every single one of the videos that get posted every single day

[20:11] <popsicolo> @DarksydePhil There are depraved videos that are targeting children on Youtube disguised at kid friendly that still get ads. There are millions of them.  
[20:11] <pray4rock> Well advertisers should be able to pick and choose what channels get there ads, much like network tv.  
[20:11] <bammbino> omfg?? hzd wow  
[20:11] <bammbino> that blows  
[20:12] <tr9000> we don't have a bot smart enough to actually watch everything, only enough to compare it to existing stuff

[20:25] <neospartanhesperos9> well i mean now that i remember it more clearly, in Mario 64 it wasn't japanese styled just like this one but it had a ninja, weeby style to it. No one remembers that forest stage with the Goomba King at the end

[20:26] <tr9000> I think he wants to figure it out on his own, since you already seen/played this stage you already know the answer so it probably would bug you to see someone else play it  
[20:26] <girlonduty> Ornightz that's what i said earlier

[21:00] <breath321> It's amazing how video game movies are so similar to Star Wars Battlefront 2, both try to cash in from fans of the series as a whole, but aren't very good standalone products  
[21:00] <kittyspank> LUL THATS THE BEST JOKE  
[21:00] <xbox1\_is\_garbage> Have you watched the punisher yet?  
[21:00] <gidgetf> Punisher is amazing so far

[21:03] <extracheeez> lol u got trolled  
[21:03] <breath321> @GidgetF well, instead of buying every new game and playing it, some streamers focus on playing a multiplayer focused game for some time to see how much they can improve and get better, it's pretty entertaining  
[21:03] <solid\_fantasy> and Despicable Me  
[21:03] <bossbabyreturns> you visit him later

[21:59] <mr5twitch> i canâ€™t believe youâ€™ve done this  
[22:00] <gettwobirdsstonedatonce> Your buying the moons youâ€™re suppose to collect  
[22:00] <kusomoto> Why is it cheating  
[22:00] <extracheeez> If you want to track your progress to getting all legit moons it makes it harder.  
[22:00] <soliddave> Its pay to win to unlock stuff if you dont want to find them yourself

[22:00] <bossbabyreturns> u can only collect 999 moons total so don't buy any till you get all the moons you can find in the game

[22:00] <realazyria> its not cheating. thats how you get all the moons

[22:00] <kingjezal> The worst mistake you could possibly make in this game

[22:00] <chronaholic> LUL

[22:00] <kusomoto> why

[22:00] <extracheeez> u get the legit moons first then buy up to 999

[22:00] <beatles12335> Its just the easy way to do it, ruins the fun

[22:02] <guty333> does he have enough coins to say buy 200 moons?

[22:03] <thatanonybear> @Guty333 no, you cant hold that many coins at once

[22:03] <guty333> so how many moons can he get with 5k

[22:03] <thatanonybear> he can buy 54 rn

[22:03] <neospartanhesperos9> @DarksydePhil people are saying to collect the legit moons first and then buy the one's you're missing. if you buy a bunch first you lose track of your progress on the moons you're suppose to collect, and it ruins the fun of finding them

[22:04] <extracheeez> there is a secret moon

[22:04] <extracheeez> yes

[22:04] <jaybird1983> try getting rid of spines

[22:04] <guty333> ok thats not bad honestly, he still has to grind and either find the moons or grind for coins
